

NEXT LEVEL LIGHTING

The way a room functions and feels depends on the types of lighting you choose. Here are a few bright ideas...

wall lamps

A strategically placed wall lamp can direct light to key work areas, such as the sink bench and stove, while a row of sconces on a wall adds after-dinner ambience.

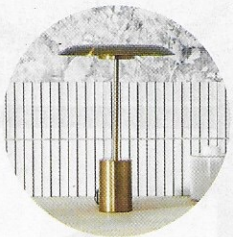

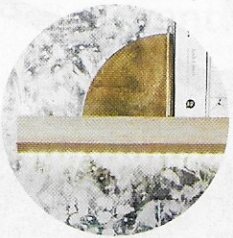

table lamps

This type of task lighting can turn a busy area into a softly lit, decorative one. Use a lamp in lieu of under-cabinet lights, and choose a cordless design for versatility.

track lights

LED track lights are energy efficient and long-lasting. Sold as a single cable fitted with multiple light heads, install them on the underside of cabinets and shelves. →

BEAM ME UP Base **cabinets** (90cm), \$154 each, Raw board modern **cabinet doors** (45cm), \$27.77 each, 3-drawer **base cabinet** (90cm), \$312, Raw board modern 3-drawer **panel** (90cm), \$58.19, and Vic Ash **benchtop** and **shelf** (both 2.4m x 60cm), \$426 each, all Kaboodle.
